OFFICERS OF THE TOWN OF HYDE PARK,

FOR THE YEAR ENDING MARCH 2, 1891.

SELECTMEN AND SURVEYORS OF HIGHWAYS:

ROBERT BLEAKIE,	GEORGE L. ELDRIDGE,
AMOS H. BRAINARD,	FREDERICK N. TIRRELL,
STEPHEN B. BALKAM.	

ASSESSORS:

HENRY C. STARK,	DAVID PERKINS,
GEORGE SANFORD.	

TOWN CLERK:

HENRY B. TERRY.

TOWN TREASURER:

HENRY S. BUNTON.

BOARD OF HEALTH:

JOHN C. LINCOLN,	JAMES P. BILLS,
DANIEL F. WOOD.	

OVERSEERS OF THE POOR:

CHARLES C. HAYES (resigned,)	term expires 1893.
JOHN TERRY	term expires 1892.
CHARLES LEWIS	term expires 1891.

COLLECTOR OF TAXES:

GEORGE SANFORD.

SCHOOL COMMITTEE:

ANDREW WASHBURN	term expires 1893.
CHARLES G. CHICK	term expires 1893.
EDWARD S. HATHAWAY	term expires 1892.
LOUISE M. WOOD	term expires 1892.
RICHARD M. JOHNSON	term expires 1891.
EDMUND DAVIS	term expires 1891.

SINKING FUND COMMISSIONERS:

HENRY BLASDALE	term expires 1893.
WILLIAM J. STUART	term expires 1892.
HENRY GREW	term expires 1891.

AUDITORS:

WALLACE D. LOVELL, CHARLES F. MORRISON,
ARTHUR C. BASS.

TRUSTEES OF THE PUBLIC LIBRARY:

CHARLES S. NORRIS	term expires 1893
EDWARD S. HAYWARD	term expires 1893.
HENRY B. MINER	term expires 1893.
G. FRED GRIDLEY	term expires 1892.
FREDERICK N. TIRRELL	term expires 1892.
EDMUND DAVIS	term expires 1892.
CHARLES C. HAYES, (resigned)	term expires 1891.
AMOS H. BRAINARD	term expires 1891.
CHARLES F. JENNEY	term expires 1891.

CONSTABLES:

FRANK GREENWOOD,	CHARLES JACOBS,
WILLIAM F. CURTIS,	CHARLES E. JENNEY,
SAMUEL P. SMITH,	BENJAMIN E. FOGG,
CYRUS GORMAN,	DANIEL O'CONNELL,
ANDREW D. ROONEY.	

FIRE DEPARTMENT:

WARREN W. HILTON	Chief Engineer.
FREDERICK A. SWEET }	Assistant Engineers.
REUBEN CORSON }	

SEALER OF WEIGHTS AND MEASURES:

JOHN N. BULLARD.

SELECTMEN'S REPORT.

FELLOW CITIZENS :

We submit for your consideration the following report of our management during the year just closed of the duties intrusted to us.

POLICE.

This department has been in all respects the same as it was the previous year, and, we believe, equally as efficient. We have no special recommendations to make, and for further information, invite your attention to the report of the Chief.

GRAVEL PIT.

We have purchased from the Real Estate and Building Co., for \$600, a gravel pit situated in the Clarendon Hills District.

INCIDENTAL APPROPRIATION.

This has proved barely enough to meet all the demands made upon it. We have paid from this appropriation bills to the amount of \$1,751.15 contracted by the Board of Health in excess of the appropriation made for their use, which has been wholly insufficient for their purposes this year as it was last year. It seems evident that the sanitary needs of a town of upwards of 10,000 souls cannot be met by an appropriation of \$500. But much of the money so expended for their use will come back to the treasury in the way of betterments.

STREET SUPERINTENDENT.

Early in our administration we decided to appoint a street superintendent, and place under his charge a suitable force of men and teams, of such size that each could be properly looked after and kept constantly at work by one man. This force has been employed every working day during the year, when the weather did not prevent, and we ask your comparison of the results accomplished with those of previous years when no superintendent was employed. The following tables will show you where 11,255 running feet (or 2 miles, 12 rods, and 4 feet) of macadamized roadway has been built, and 8,710 running feet of sidewalk and curbing.

MACADAMIZED ROAD.

On Hyde Park and Central Park avenues	.	.	.	6,000 feet
" River street	.	.	.	3,200 "
" Arlington street	.	.	.	210 "
" Business street	.	.	.	120 "
" Fairmount avenue	.	.	.	270 "
" Water street	.	.	.	720 "
" Milton street	.	.	.	555 "
" Bridge street	.	.	.	180 "
Total				11,255 feet

SIDEWALKS.

On Arlington street	.	.	.	2,440 feet
" River street	.	.	.	2,570 "
" Neponset avenue	.	.	.	950 "
" Walnut street	.	.	.	830 "
" Milton avenue	.	.	.	150 "
" Highland street	.	.	.	320 "
" Pierce street	.	.	.	1,450 "
Total				8,710 feet

WORK ON STREETS AND SIDEWALKS.

With feelings of pleasure we point to the work done, not only in the line of permanent improvements, shown in the preceding tables, but also in keeping our streets in a reasonably safe and comfortable condition. There having been no specific appropriations for particular streets, we have not kept and cannot present a detailed statement of exact amounts expended on highways in different parts of the town. Many times work in two or more places can be economically dovetailed together under the watchful eye of a superintendent; as, for instance, where a cut in one locality provides the material for filling in another, etc.

Moreover, we have endeavored to consider the highway business not as a sectional matter, but always with a view to the interest of the town as a whole.

So we may summarize by saying that with the amount at our disposal, about \$21,000, we have kept the highways, generally, in a reasonably satisfactory state; have built over two miles of macadamized road and nearly 9,000 feet of sidewalk and curbing; have rebuilt, at a cost of about \$200, the stone wall on Walnut street, at the foot of Oak street, near the N. Y. & N. E. R. R.; have rebuilt a retaining wall on Williams avenue, at a cost of about \$300; have built a high retaining wall opposite Mrs. Carr's house on Pond street, to make good the damage done her property when the street was cut through two years ago; we have a ledge well opened up from which stones for the crusher can be cheaply got; also about 1,200 loads of stone crushed and ready for distribution upon our streets; and, what is of no little importance, we have a trained force of workmen for this department, fitted by their year's experience to render much more efficient service than any new levy could;

and we have about \$3,500 in the treasury yet unexpended. These results seem to show that our town is in good financial condition so far as its highways are concerned, and may fairly encourage us to expect that, in the near future, every street and every sidewalk may be brought up to the best standard for our use, if similar appropriations and like methods are continued.

All the sidewalks built this year have been made under the betterment law, with the additional benefit of a written agreement made by the whole or the larger part of the abutters to pay 50 per cent. of the cost within thirty days after completion of the work.

Our Board felt bound to give priority to all such cases, because it was so plainly for the advantage of our citizens, as it enabled the same money to be used two or three times in the course of the year; thus increasing largely the amount of improved sidewalk which could be constructed from the appropriation made, and so enlarging the benefit to every citizen who has occasion to use our ways. Moreover, this policy rendered impossible such jealousies as arose from the way in which the sidewalks were located in 1887 and 1888, and saved the Board from any suspicion of catering to particular classes or sections.

Agreeably to their promise, the greater part of the abutters have paid their assessments, but some have failed to do so, and there is now due the town on this account \$1,414.50. Some of those who have not paid complain that the sidewalk is not equal to their expectations. These complaints have been a surprise to us, as they were first made long after the work was completed and notice to that effect given, and when the frost of mid-winter made it impossible for us to properly remedy any defects which time had made apparent. The new sidewalks are somewhat of an experiment.

On most of the streets they are entirely satisfactory. Where defects have appeared we have frankly admitted them and pledged our best efforts to have them corrected in the early Spring.

Let us close our report on streets and sidewalks by presenting to you in a business way a statement of net cost of these for the year.

The sum which we had from all sources in cash or its equivalent for sidewalks and streets was . . .	\$21,321 48
Of this there is now in the treasury . . .	\$3,465 38
There is due for betterments from work done this year	1,414 50
There are 1,200 loads of stone ready for use, worth	1,200 00
The value of the ledge opened up, and platform, etc., built this year and ready for use next, is 1,000 00	\$7,079 88
Leaving the net cost to taxpayers of the year's work on streets and sidewalks	<u>\$14,241 60</u>

If you will compare the work thus done at a net cost of \$14,241.60, with that done including betterments received in 1886 at a cost of \$32,702.04, in 1887 at a cost of \$26,361.89, and in 1888 at a cost of \$44,590.34, we think you will agree that when business principles, which include a proper organization, are applied to the expenditure of your money, the results are profitable and satisfactory.

ASSESSMENTS OF BETTERMENTS ON WORK OF 1888.

One of the most perplexing matters which has been forced upon our attention has been the assessment of betterments upon abutters on twenty-four streets which were accepted at a town meeting held August 14, 1888, and for which was appropriated sums aggregating \$8,308 to be raised on the tax levy of the following year and to be expended on those streets under the betterment law. When

the matter was presented at the town meeting the acceptance of those streets met with considerable opposition because there had already been spent on the highways that year over \$30,000 made up of money raised by taxation or borrowed on ten years' time. But the urgency of those interested in their acceptance, coupled with the representations of the Selectmen that this money would be expended under the betterment law and would therefore soon come back into the treasury, convinced the meeting that it was wise to accept the streets and raise the necessary money on the taxes of the following year. Though the Selectmen of 1888 spent that money, they did not assess the betterments, but left that important and delicate duty to those who should come after them. This matter was first called to our attention by a member of that Board last June. We investigated and found that immediate action must be taken or the town would lose all right to make assessments. We devoted two days to careful, personal examination of those streets and every interest involved, and then made assessments to the best of our judgment. On a considerable number of the streets we could not conscientiously assess anything as betterments, and only where we saw that abutters were benefited did we make assessments, aggregating \$1,865. When it is remembered that \$8,308 was expended, the figures show that we endeavored to be careful and conservative in our action, yet our leniency and moderation has met with no recognition. Of those assessed but twenty have paid, \$470.91 in all, and every one under protest, while one of the parties who was considered the most benefitted has begun legal proceedings to avoid payment. The situation, then, is this: the \$8,308 spent by the town two years ago to gratify the urgent demands of a portion of its citizens, under the promise that the money so spent would

be returned in betterments, results in only \$470.91 coming back, and that under protest. This matter we report, fellow citizens, for your consideration at some future town meeting, if you think anything further should be done. For ourselves, while we make no claims to infallibility, we feel that we have been sufficiently moderate in our estimate of benefits.

SUITS.

Mr. J. N. Bullard had brought suit against the town for personal injury, laying damages at \$4,000. On trial, judgment was given for the town.

William J. Hayes of Dedham sued the town for \$2,000 damages received from a telephone wire. On trial a verdict in favor of the town was given. The case has been taken to the Supreme Court on exceptions, which will be argued in March.

A claim of Thomas Corrigan for damages resulting from raising the grade of a street is a legacy from 1888. It was referred to the committee appointed by the town on the "Murray Case," by whom Corrigan was awarded \$250.

Maria A. Eustis has appealed from assessment made by us for betterments, resulting from the acceptance and grading of Warren avenue. This matter is now pending.

METROPOLITAN AVENUE.

Early in the year we received notice from the County Commissioners of a petition presented to them by some of our town's citizens asking that Metropolitan avenue be laid out from the Neponset river to the line of the O. C. R. R. As this was the first instance in the experience of our town or, so far as we could learn, in that of any other, where the County Commissioners were appealed to in case of a street

lying wholly within the boundaries of one town until the town authorities had been first requested to act and had unreasonably refused or neglected to do so, we felt it our duty, as custodians of our town's dignity and rights, to object to the jurisdiction of the Commissioners in this matter and oppose the action requested. And this the more, because no town in this County has spent more money on its highways in the last few years than ours, nor shown a more ready willingness to comply with any just or reasonable demands; and because a considerable part of the street asked for was not needed, and its construction would call for a heavy expense. Numerous hearings were had before the Commissioners, who eventually made a decree granting the prayer of the petitioners. On October 27th, our counsel presented a petition to the Supreme Court setting forth that there were certain irregularities in the proceedings of the County Commissioners, and praying for that reason that a writ of prohibition be issued prohibiting the Commissioners from proceeding further. Upon the presentation of this petition the Court issued an order of notice to the Commissioners to show cause why an injunction should not issue pending the proceedings before the Court. At the suggestion of the presiding Justice, it was agreed that no action would be taken until the case could be fully heard on the bill and answer, which will be in May next, probably.

Following the method instituted last year, and which appeared to meet your approval, we here present our estimates of what you will need to appropriate to meet the current expenses of the town for the ensuing year, giving in a parallel column the sums appropriated for the same purposes for the current year.

SUPPORT OF SCHOOLS.

	1890.	1891.
Salaries, janitors and fuel,	\$28,000 00	
Incidentals,	3,150 00	
Text books and supplies,	1,500 00

	<hr/> \$107,635 92	\$104,891 66
State and County Tax, as paid in 1890,	10,463 76	10,463 76
	<hr/> \$118,099 68	\$115,355 42

If the above sums are appropriated, the tax levy will be about \$15 per thousand, or nearly one dollar per thousand

less than three years ago. All the estimates in departments other than that of schools have been carefully made. There we have simply taken the figures of last year, and as the appropriations then were liberal, and the sum asked for a laboratory will not be wanted again, we think the figures may be safe to base our estimate upon.

In this report we have endeavored to put you in possession of all facts and information which would seem to be useful or interesting to you. We hope that the same will meet your careful and candid consideration. If the government you have had the last two years is the kind you desire, then see to it that you attend the town meetings and give those whom you have elected to office that support which is needed for good government, and not leave them as targets for abuse from professional fault-finders, whose only claim to notoriety is their ability to excite disturbing elements to the injury of the best interests of our town.

ROBERT BLEAKIE,
AMOS H. BRAINARD,
GEORGE L. ELDRIDGE,
FREDERICK N. TIRRELL,
STEPHEN B. BALKAM,

Selectmen of Hyde Park.

REPORT OF THE BOARD OF HEALTH.

In compliance with the requirements of the Public Statutes, the Board of Health herewith presents its report for the year 1890.

The general health of the town has been good.

There has been no epidemic of diseases during the year.

Our citizens are giving greater attention to sanitary appliances and measures, and with beneficial results.

In the performance of its duties, which have been more extended and arduous than during previous years, the Board has endeavored to cause as little inconvenience as possible, always keeping in view the preservation of the public health.

MEETINGS.

The Board has held forty-five meetings, and eight hearings, during the year.

According to the last U. S. census report, our town has a population of nearly 11,000. With this increased population there has been erected a proportionate number of dwelling-houses, factories and mercantile establishments, and in conjunction therewith cesspools and privy vaults have alarmingly multiplied. This is a serious matter, demanding the consideration of our citizens. Many of the so-called filth diseases are traced to cesspools and privy vaults.

Another source of diseases may be traced to damp

and wet cellars, which exist in many localities. In the absence of an underground system of drainage, (which is hereby recommended,) the Board believes all such should be cemented, and kept free from garbage or dirt of any kind, and well ventilated in pleasant weather.

The foregoing statements lead the Board to conclude that if the owners and tenants of houses and industrial establishments would comply with these suggestions, and with the Rules and Regulations of the Board, many cases of sickness might be avoided.

The following Rules and Regulations were adopted by the Board early in the year and were publicly promulgated through the local newspapers and on separate sheets.

REGULATIONS OF THE BOARD OF HEALTH

[SEAL]

OF THE TOWN OF HYDE PARK.

PUBLIC STATUTES, CHAPTER 80, SECTION 18:—The Board of Health of a town shall make such regulations as it judges necessary for the public health and safety, respecting nuisances, sources of filth and causes of sickness within its town. Whoever violates any such regulations shall forfeit a sum not exceeding one hundred dollars.

In accordance with the foregoing provisions of law this Board makes the following regulations, which will be strictly enforced.

REGULATION 1.—The owner, agent or occupant having the care of any tenement used as a dwelling house, shall furnish the same with sufficient drain, under ground, to carry off the waste water; also with a suitable privy or water closet sufficient for the accommodation of all those inhabiting the premises. All waste pipes from water closets, sinks, bowls, bath and other set tubs, shall be suitably trapped, and all drains entering cesspools must be made water tight. There should also be a trap in the soil pipe between the house and cesspool and provision made to admit air into said pipe between the house and trap.

REGULATION 2.—All privy vaults, unless water tight, shall be so constructed that the inside of the same shall be at least five feet distant from the line of every adjoining lot or street, and from any dwelling house, and shall be provided with a ventilation through the roof; the same shall not be used as cesspools nor receive drainage from the premises; their contents shall not be allowed to leak out or otherwise become offensive.

REGULATION 3.—All waste water shall be so conveyed through sufficient drains under ground, to a reservoir sunk under ground as shall be approved by the Board of Health. No person shall allow any drain or the overflow of any cesspool to enter any running stream, or any drain constructed for surface water, and no person shall suffer any house drainage or other offensive water to remain in any cellar, or upon any lot or vacant ground by such person owned or occupied. All privy vaults and cesspools within thirty feet of any well or spring, the water of which is used for domestic purposes, must be water tight.

REGULATION 4.—The Board when satisfied upon due examination that a cellar, room, tenement or building in the town occupied as a dwelling place, has become by reason of the number of occupants, want of cleanliness or other cause, unfit for such purpose, and a cause of nuisance or sickness to the occupants or the public, may issue a notice in writing to such occupants, requiring the premises to be put in proper condition, or if the Board see fit they may require the premises to be vacated and the same shall not be again occupied without the written permission of the Board.

REGULATION 5.—No person shall throw or put into any public place or pond, or running stream, or body of water, or in any other place where the Board of Health may deem it a nuisance, any dead animal, animal matter, decayed fruit or vegetables, dirt or rubbish whatever; nor shall any person throw into or upon any flats within the jurisdiction of the town, any dead animals, filth or offensive matter.

REGULATION 6.—No person shall remove, or carry in or through any of the streets, lanes or avenues, places or alleys within the town of Hyde Park, the contents of any cesspool, vault or privy well, swill or house offal, (either animal or vegetable,) or grease or bones, unless a permit be granted by the Board of Health upon such terms and conditions as said Board may deem necessary.

REGULATION 7.—No person shall bury swill or house offal, or the contents of any cesspool, vaults, privy, or privy well within the limits of the town of Hyde Park unless a permit be granted by the Board of Health.

REGULATION 8.—Parties will be licensed by the Board of Health to collect swill and refuse matter from houses in Hyde Park twice a week or oftener, and all housekeepers and others are directed to deliver the same to those duly authorized to make such collection.

REGULATION 9.—No person shall bring into the town, keep or offer for sale any diseased, putrid, stale or unwholesome meat, vegetables or provisions.

REGULATION 10.—No person will be permitted to keep any swine within the limits of the town of Hyde Park without a written permit from the Board of Health.

REGULATION 11.—Any person sick with the small pox or other contagious disease, together with all persons in attendance upon them, and the premises where such sick person is, will be subject to the control of the Board, and no person shall enter or leave a house wherein a person is or has been sick with the disease or in any way come in contact with the inmates of such house except by permission of the Board.

REGULATION 12.—Whenever the Board of Health shall ascertain that any person is sick with small pox, scarlet fever, diphtheria, or any other disease dangerous to the public health, the Board shall at their discretion have full control of said person or premises, and shall if they deem proper, order the premises vacated.

REGULATION 13.—All persons are warned not to approach a house or the surrounding premises whereupon is displayed a disease flag by day, or a red light by night.

REGULATION 14.—The bodies of all persons dying of small pox, scarlet fever, typhus fever or diphtheria must be immediately disinfected, and placed in a tight coffin, which shall not be reopened, and the bed, bed clothing, and other clothing used by any such person, and by those in attendance on him, and all the furnishings of the sick room, thoroughly disinfected before being taken from said room. In the above case no public funeral will be allowed without permission from the Board of Health.

REGULATION 15.—The owner, or persons having charge of any vehicle, public or private, used at a funeral in the foregoing cases, to carry the deceased, or any of the family or attendants of the deceased, shall forthwith report the fact to the Board of Health, and shall thoroughly disinfect such vehicle before the same is again used, and take such other precaution as the Board of Health shall direct.

REGULATION 16.—Any person in the town of Hyde Park, who knows or suspects any domestic animal has contagious disease (such as glanders in horses or cholera in swine) must immediately report the same to the Board of Health. The penalty for neglect to do so is fine or imprisonment. The above is in accordance with the provisions of Chapter 252 of the Acts of 1887.

REGULATION 17.—All complaints in relation to nuisances and sources of filth injurious to the public health and safety, must be made in writing

to the Board of Health, with a description of said nuisance and of the premises on which it exists, with the owner's name, if known to the complainant. Such complaints must bear the signature of the complainant. Whenever such complaint shall be made as aforesaid, the Board of Health will proceed to examine the premises complained of, and will take measures to abate the nuisance, if such is found to exist.

Fully believing that a large proportion of contagious diseases originate from unsanitary conditions, we trust we shall have the aid of all citizens and property owners in carrying out the above regulations, which are based on statute laws and the sanitary rules of our large towns.

For burial permits apply to A. G. Childs, druggist, 30 Fairmount Ave.

CONTAGIOUS DISEASES.

In all cases of diphtheria, typhoid fever and scarlet fever reported to the Board, placards have been displayed and the premises have been thoroughly disinfected by order of the Board.

The following blank form printed on postal cards, with Board of Health of Hyde Park, Mass., on address side, have been furnished to all physicians in the town, so far as known to the Board.

The Board of Health is hereby notified that.....
age living at No. is ill with
..... Attending Physician.

NOTE 1. Physicians are required under the Public Statutes, Chapter 98, Section 2, to report immediately *each* case of diphtheria, typhoid fever, scarlet fever, cholera (Asiatic), small pox, typhus fever, measles, membranous croup or cynanche trachealis, to which they may be called.

NOTE 2. In unnumbered streets a favor will be conferred by stating in addition to the name of the street, the nearest cross street.

The number of contagious diseases reported to the Board for the year 1890, has been as follows :

Diphtheria,	60 cases	with	21 deaths.
Scarlet Fever,	7 "	"	0 "
Typhoid Fever,	38 "	"	6 "
Cynanche Trachealis,	1 "	"	1 "
Measles,	4 "	"	0 "

Against

Diphtheria,	42 cases	with	6 deaths.
Scarlet Fever,	4 "	"	0 "
Typhoid Fever,	10 "	"	2 "
Membraneous Croup,	1 "	"	1 "
Measles,	170 "	"	1 "

for the year 1889.

The Board have condemned one well and one spring found to be unfit for domestic purposes, and town water ordered put in.

There have been many dead animals removed from the Neponset river during the year and buried, besides quite a number gathered up in various places in town and also properly buried.

The Board of Health deprecates the custom some people have of throwing dead animals into the rivers, brooks and ponds within the limits of our town. Near the "red bridge" about a dozen dead and decaying dogs and cats were taken out at one time, the same having lodged at that point, and by order of the Board were buried.

EXPENDITURES.

The Board decided to employ Frank Hukin and C. H. Crumett to collect swill and house garbage, and upon same conditions as last year, and the Board feel satisfied that they have faithfully performed their duty.

The manner in which the \$500 appropriated for the use of this Board has been expended will be seen by reference to the statistical tables. In addition to this the Board have incurred liabilities and approved bills to the amount of \$907.05, of which \$796.05 have been paid by the Selectmen from their incidental appropriation, and \$111 remains unpaid. Of the amount paid \$300 was for filling, etc.,

near Elm and Arlington streets to abate the nuisance existing there in the form of wet and rotten lands and stagnant water; \$46 were for plans necessary to wisely consider the petitions relating to such nuisances in the above-named locality, on Davison street, and near the O. C. R. R. station; \$41.25 were for clerical service; \$24.80 were for miscellaneous purposes and \$384 were on account of expenses in removing swill and house garbage. This latter work is in itself of a magnitude to cost more than double the amount appropriated by the town for all purposes. It is unnecessary to dilate upon the importance of the duties which are devolved upon the Board of Health by the laws of our State, and which it is obliged to attend to so far as lies in its power, whether hampered by insufficient appropriations or not. It is to be noticed that every citizen, whenever he feels that his health is menaced by unsanitary conditions, is extremely urgent that the Board take immediate and thorough measures of relief regardless of expense. If a somewhat similar recognition of the usefulness of the Board was manifested when the question of appropriations was under consideration, such action would be taken that the Board would not need to rely on the good will of the Selectmen to enable it to meet its obligations and transact the business which it was elected to do. It seems fitting that the Board of Health should here express its appreciation of the kindly and courteous manner in which the present as well as the last Board of Selectmen have seconded and supplemented its efforts to promote the good health of the town.

LOW, WET AND ROTTEN LANDS.

Late in the month of March an overflow of water took place flooding a considerable portion of the territory be-

tween Davison and Pierce streets, and of the land lying east of the latter street, invading cellars, cesspools and privy vaults, washing out their contents and mixing them with the flood surrounding the numerous dwellings in that locality.

Pending the performance of those acts required by law to give jurisdiction in such cases to this Board, the Selectmen, in view of the grave character of the emergency, placed the steam fire engines on the spot and pumped the water out into the gutters, by which it was discharged into the Neponset river.

Petitions being speedily prepared and presented to this Board, due notices given to all interested, and hearings held, the Board took action, and constructed a new drain from a point on land of one Pierce, to a drain on land of Mr. Higgins, with two large catch basins at proper points between. This is considered a work of a permanent nature, and calculated to prevent a similar catastrophe in the future.

The cost of work done by the Board here was \$697.81, which has been apportioned among the persons and estates benefitted.

A complaint was received in April concerning wet and malarial land off Elm street and back of General Carrington's residence on East River street.

Notices were given and hearings were held as required by law, and the Board adjudged the premises a nuisance and proceeded to remedy the same by filling the deep mud hole with stones and gravel, and constructing a covered stone drain connecting with an open drain, leading to

West street, which was cleaned out and graded so as to conduct its water into the existing West street drain.

By this action has been removed a long-standing cause of sickness and complaint on the part of the residents in that populous district.

The cost of this work was \$300, more than half of which was assessed to those immediately benefitted.

The condition of the low lands by the Hyde Park Station of the Old Colony Railroad have been the subject of complaint, and petitions to previous Boards of Health, which have attempted to mitigate the evil at a small expense to the land owners.

Such action having not proved effectual, complaint was made to this Board, May last, upon which repeated hearings were held, at which were present the treasurer and others of the Real Estate & Building Company, and prominent officials of the Railroad Corporation, as well as many of our citizens of the neighborhood. Grave questions as to the existence and location of former natural drains arising, and the corporations interested having given the Board reasonable encouragement to believe that they would take such steps as would remove the necessity for further complaint, this Board thought it inexpedient to pass any formal orders or requirements.

A portion of what was indicated has already been done, and the Board looks for further action when the season will permit. This matter has been attended with no further cost to the town than the legal notices and services, and of plans prepared by our surveyor, which will prove of future value.

Other matters have been brought to the notice of the Board by a petition, to which it has endeavored to give faithful attention, and to provide such remedies as circumstances seemed to admit.

TERM OF OFFICE.

The attention of the citizens of the town is called to the advisability of extending the term of office of their health officials to three years. This has become the rule in most places where health boards exist. As is now the custom, there is a possibility of an entirely new board being elected, and thus jeopardizing the sanitary interests of the town, from lack of experience. In case the town should make this change, there will be one retiring member annually, and one new, with two members of the Board acquainted with the work of previous years pertaining to the Health Department.

The Board of Health would therefore respectfully present this proposed change for your consideration.

J. P. BILLS, M. D., *Chairman*,

J. C. LINCOLN, M. D.,

D. F. WOOD, *Secretary*.

Board of Health.

REPORT OF THE OVERSEERS OF POOR.

TO THE CITIZENS OF HYDE PARK:

The Overseers of the Poor, in submitting their annual report for the year ending Jan. 31, 1891, have occasion to repeat the statement of last year, that "a majority only of the Overseers append their signatures to the report of the department under their charge." Our associate, Dr. C. C. Hayes, who was elected a member of this Board in March last, resigned last fall, owing to a distressing domestic affliction, and subsequently removed from town. For many years Dr. Hayes had been connected with this department as town physician, and had rendered efficient service. His loss to the town as a faithful official is to be regretted by all.

The Board have endeavored to the best of their ability to deal promptly with and carefully provide for the wants of all worthy cases, and to give such attention to the unworthy as in their judgment was required. In the disbursement of partial support or relief, great care is necessary in dealing with pauperism, lest it be increased by too generous giving of aid to those applying for it and the evil increased rather than averted. A thorough and careful investigation of all cases has been made before giving assistance, and the families frequently visited.

CHARLES LEWIS,
JOHN TERRY,

Majority of Overseers of Poor.

REPORT OF TRUSTEES OF THE PUBLIC LIBRARY.

Public Libraries are now fully recognized as a most important part of the educational system of the State, and the Commonwealth itself has recently taken action looking to their establishment in towns not already provided with the same. In 1888, a statute was passed requiring towns having free Public Libraries to elect by ballot trustees of such Libraries, established and regulated the duties of such trustees, and required them to annually make an explicit report of their receipts and expenditures, of the property in their charge, and any bequest or donations received by them, together with "such recommendations in reference to the same as they may deem necessary for the town to consider." In 1889, further provisions of the same nature were made, and in 1890, an act was passed to "promote the establishment and efficiency of free public libraries," constituting a State board of Library Commissioners (who serve without pay) to advise with librarians and trustees, and also providing, to a limited extent, for financial aid by the state in establishing Libraries in towns not already provided with the same. Pursuant to and in fulfillment of the foregoing requirements of law, this report is submitted :

BETTER ACCOMMODATIONS.

It is necessary to reiterate again the pressing need of far better accommodations for the Library. No more cases for books can be placed in the space now reserved for that purpose. During the coming year it will undoubtedly be

necessary to encroach upon the limited space now provided as a reading room. Even that will be a mere expedient and will not relieve us from our difficulty but a very short time. The catalogue, issued in 1887, is exhausted, and no new catalogue should be issued until there is opportunity for a much needed re-classification of books. This cannot be done in our present quarters. There are none of the town offices that are used by so many of our residents as the Library, and no department of the town, except its schools, comes into such immediate relations with its houses. Prompt action is necessary to meet the emergency. Seven towns of Norfolk county already have special buildings for Library purposes, and still others have provided adequate quarters in buildings owned by the respective towns. The Treasurer's report shows a fund of \$5,722.21 now available, and, as was said in the report of last year, our present rental is sufficient to meet the interest on ten thousand dollars. More commodious quarters, if such can be found, (we know of none,) will require a still greater rental. It is obvious that a suitable Library building does not necessarily mean an increased burden to the town.

BOOKS AND CATALOGUES.

During the past year five hundred and sixty volumes have been added to the Library, thirty-four volumes by donation, and five hundred and twenty-six volumes by purchase. The total number of volumes now in the Library is about eleven thousand five hundred. Besides the above, the current magazines are provided for use in the reading room and outside circulation. The total circulation of the Library for the past year has been 33,452. There have been 1,119 magazines and 917 volumes used in the reading room.

The character of the circulation has not changed materially from previous years. A second supplementary catalogue of

twenty-eight pages has been issued and includes all books added to the Library from November, 1887, to January, 1890. The original catalogues, as hereinbefore stated, are exhausted.

HISTORICAL SOCIETY'S LIBRARY.

The Library of the Historical Society has been placed upon a substantial basis and opened for use by its members. This Library is rapidly increasing in size and value, and now contains over six hundred volumes, files of local newspapers, and several hundred pamphlets. These are largely works not found in the Public Library, and supplement the same. If some arrangement could be made providing rooms for its Library adjoining the Public Library, and the use of the library of the Historical Society secured to all our citizens, it would be an advantage to the town.

ELECTRIC LIGHTING.

The Trustees desire to light the Library by electricity. To do this will require a slight increase in the annual appropriation.

CHARLES C. HAYES.

The Library has met with a great loss in the removal from our town of Dr. Hayes. He had been an earnest and faithful trustee of this Library continuously since March, 1879.

STATEMENT OF FINANCIAL CONDITION AND PROPERTY.

Reference is made to the report of the Town Treasurer for a statement of the financial condition of the Library, and its receipts and expenditures. A schedule of property under our care is herewith submitted.

DONATIONS.

The following donations have been received during the year :

- 15 volumes from Washington.
- 29 pamphlets from Washington.
- 9 volumes from Commonwealth of Mass.
- 6 " " City of Boston.
- 1 " " Rev. Jas. Huxtable.
- 2 " " Mr. A. E. Giles.
- 1 " " W. Woodruff.
- 1 pamphlet from W. D. Bidwell.

CHARLES F. JENNEY, for the Trustees.

STATEMENT OF PROPERTY IN CARE OF TRUSTEES :

Books ; book-cases and shelving ; desks ; tables ; chairs ; gallery ; lamps ; stoves ; pictures ; cases of stuffed animals ; and the usual kinds of library supplies.

POLICE REPORT.

TO THE BOARD OF SELECTMEN :

Gentlemen : The following is a record of arrests during the year ending February, 1st, 1891.

Drunkenness,	125
Assault,	10
Vagrants,	31
Larceny,	8
Violations of liquor law,	8
Insane persons committed to hospitals,	3
Common drunkard,	4
Disturbance of religious worship,	1
Peddling without license,	2
Malicious mischief,	1
Employment of children under age,	2
Cruelty to animals,	1
Selling leased property,	1
Non-support of children,	1
Obtaining money under false pretence,	1
Assault with intent to kill,	1
	200

MISCELLANEOUS WORK.

Persons arrested and turned over to officers of other places,	2
Stolen property recovered,	\$734 00
Stores found open at night,	19
Cases investigated without arrest,	123
Search warrants for intoxicating-liquor,	7
Defects in streets and sidewalks reported,	21
Travellers lodged in station house over night and discharged the following day,	3,324

In presenting my annual report for the year it gives me great pleasure, in the discharge of what I deem my duty,

as well as my privilege, to make at this time some suggestions, as well as a report in regard to the police service of our town. We are to-day one of the largest towns in the Commonwealth, having between ten and eleven thousand inhabitants ; with our present small police force and limited means to work with we demonstrate that we are a model town, as far as good order and quietness are concerned, for as it is considered in police circles that one officer is required for each one thousand inhabitants, we do not need this number in our quiet town ; but I am clearly of the opinion that we should have more officers to further protect the rights and property of our citizens.

During the last few years the population as well as the valuation of our town has materially increased, but there has not been a corresponding increase in the number of our officers delegated to regular service. I therefore at this time recommend for the consideration of your honorable Board, and through you to the town, the advisability of having two men in the centre of the town, during the evening and night, with some additional protection for our outlying districts, which we are not now able with our small force to give adequate attention. With a larger appropriation and more men on active duty the citizens of our town would be fully compensated and satisfied for this extra outlay.

CHARLES E. JENNEY,
Chief of Police and Keeper of Lockup.

ENGINEERS' REPORT.

TO THE HONORABLE BOARD OF SELECTMEN :

Gentlemen : We herewith present to you our annual report for the year ending Jan. 31st, 1891, together with the record of fires and losses.

Unlike many towns in the State, we have no report of large or disastrous fires, there being only fifteen alarms during the year, and only one fire of any magnitude, which, owing to the efficient hydrant service, enabled us to confine it to the block in which it originated.

We recommended in our report last year the addition of fifty or sixty more hydrants, provided they could be contracted for at a reasonable figure, and we hope the town will see the necessity of taking action at once, as many portions of our town would suffer serious losses in case of fire, and the Fire Department would be of little use, owing to the long distance from water supply, if called to these localities.

FIRE ALARM.

The Fire Alarm is in good condition and has proved satisfactory in every way. At the commencement of the year we added eight new boxes located as follows :

- Box 4 Cor. East River and West Sts.
- “ 7 Engine House.
- “ 8 Cor. Hyde Park Ave. and West St.
- “ 13 Gordon Ave. near Grew School.
- “ 14 Cleveland and Childs Sts.
- “ 32 Beacon St. and Milton Ave.
- “ 34 Summit St. and Fairmount Ave.
- “ 35 Dana Ave. and Loring St.

The work was done under supervision of E. A. Hawley, Steward of Engine House, who has the care of Fire Alarm, thereby giving the town more boxes for the money appropriated than if done by outside parties. We have also constructed a Battery Room in the basement of Engine House for the better care and protection of battery. There are still portions of our town that need alarm boxes, and we hope to see them put in so that all parts of our town will share the protection.

HOSE.

A special appropriation was made of \$500.00 to purchase hose. We invited bids from the leading dealers in hose, and finally obtained 800 feet of good cotton hose, which was much needed, and gives us now about 3,000 feet of good hose and 1,500 feet of old hose. The apparatus is all in good condition.

OFFICERS AND NUMBER OF MEN.

The following is a list of the officers and number of men in the department.

W. W. HILTON, Chief Engineer.
 F. A. SWEET, Clerk.
 REUBEN CORSON, Assistant Engineer.

Hose Co. No. 1.

E. W. BULLARD, Foreman.
 C. M. WANDLASS, Assistant Foreman.
 C. T. LOVELL, Clerk and Treasurer, and five men.

Hose Co. No. 2.

A. E. MARSTERS, Foreman.
 F. T. GREENLOW, Assistant Foreman.
 W. G. ROBINSON, Clerk and Treasurer, and six men.

Hose Co. No. 3.

J. H. O'BRIEN, Foreman.
 F. KUNKEL, Assistant Foreman.
 D. W. MAHONEY, Clerk and two men.

CHEMICAL ENGINE No. 1.

MALCOLM ROGERS, Foreman.
 M. J. FOLEY, Clerk and three men.

HOOK AND LADDER No. 1.

W. HOLTHAM, Foreman.
 BENJ. RAFTER, Assistant Foreman.
 W. R. McDOUGALD, Clerk and seven men.
 M. J. FOLEY, Engineman.
 E. A. HAWLEY, Superintendent Fire Alarm and
 Steward of Engine House.

Number of men in Department 40.

The Town Clerk requests information of any omission or error in the above tables, in order that the registration may be as complete as possible.

Respectfully submitted,
HENRY B. TERRY, Town Clerk.

BY-LAWS.

NOTIFICATION OF TOWN MEETING.

Every town meeting shall be notified by posting copies of the warrant calling the same, in ten public places in the town. seven days, at least, before the day appointed for said meeting.

ANNUAL TOWN MEETINGS.

The annual town meeting for the election of town officers shall be held on the first Monday of March of each year. The meeting shall be opened at seven o'clock A. M., and the polls shall be kept open until sunset.

A town meeting shall also be held annually between the first Monday of March and the first Monday of April, for appropriating such sums of money as may be necessary for town purposes, and for transacting such other business as may legally be brought before said meeting.

RULES FOR THE GOVERNMENT OF TOWN MEETINGS.

1.—All questions submitted for the consideration of the town, involving the expenditure of money, shall be in writing, when so required by any legal voter.

2.—No vote fixing the period for closing a ballot shall be reconsidered after such ballot shall have commenced; but it may be in order to extend the period without such reconsideration.

3.—When a question is under debate motions shall be received to adjourn, to lay on the table, the previous question, to postpone to a certain time, to postpone indefinitely, to commit, or to amend; which several motions shall have precedence in the order in which they are herein arranged.

4.—The powers and duties of the presiding officer, not especially provided for by law, or by the foregoing rules, shall be determined by the rules of practice contained in "Cushing's Manual," so far as they are adapted to the condition and powers of the town.

5.—No vote shall be reconsidered except upon a motion made within one hour after such vote has passed, unless such reconsideration is ordered by a vote of two-thirds of the voters present and voting

FINANCIAL YEAR.

The financial year of the town shall begin with the first day of February in each year, and end on the thirty-first day of the following January.

The selectmen, overseers of the poor, board of health, surveyors of highways, and school committee shall post in some conspicuous place at their official rooms, a notice of the times of their respective meetings.

COLLECTION OF TAXES.

1. —The assessment of taxes shall be completed, and a list of the same delivered to the collector, on or before the first day of August of each year.

2. —All taxes which may be assessed, if paid on or before the first day of October next after the assessment, shall be entitled to such discount as the town shall vote at its annual meeting. All taxes shall be due and payable on or before the first day of November next following the assessment of said taxes.

3. —On the first secular day of each month, the collector shall pay over to the town treasurer all the taxes collected by him, and he shall, on or before the first day of February in each year, make up his account and render the same to the auditors.

DUTIES OF THE AUDITORS.

1.—The auditors shall examine the accounts of the selectmen, school committee, treasurer, collector, trustees of the public library, and all other officers or committees entrusted with the expenditure of money, quarterly, and shall certify as to the correctness of the same in the printed annual report.

2.—Before certifying to the accounts of the treasurer, they shall examine his cash-book, wherein shall be entered his receipts and payments, as they occur from day to day, shall see that he has paid out no moneys except on proper vouchers, carefully examine all payments for interest, and see that the funds on hand are intact.

3 —Before certifying to the collector's accounts, they shall examine his cash-book, showing the amounts collected from day to day, and showing when the same were paid over to the treasurer; shall see that he has collected interest on all taxes overdue, and shall see a complete list of abatements, and also a list of unpaid taxes.

4.—They shall see that the accounts of the trustees of the public library are kept in a correct manner, and that all payments are accompanied with proper vouchers.

COASTING.

Coasting on any of the public streets of the town is prohibited, except upon such streets as the selectmen may designate each year by public notice.

HIGHWAY AND POLICE REGULATIONS.

1.—No building shall be removed over a public street without the written permission of the selectmen.

2.—The owner of such building, or the person or persons removing the same, shall give a bond in such penal sum, and with such sureties as the selectmen shall determine, with condition to reimburse the town for all sums of money which it may be liable or compelled to pay in consequence of such use of the highways.

3.—No person except the selectmen or the surveyors of highways, in the lawful performance of their duties, or those acting under their orders, shall break or dig up the ground in any street or public way in the town, without first obtaining a written permit from the selectmen; and all persons acting under such permit shall put up and maintain a suitable railing or fence around the part of the street so broken up, so long as the same shall remain unsafe or inconvenient for travellers, and he or they shall keep one or more lighted lanterns fixed to such railing or fence, or in some other way exposed every night from twilight in the evening through the whole night, so long as such street or way shall be or remain unsafe or inconvenient for travellers.

4.—No person shall ride or drive a horse in any street in the town at a rate faster than eight miles an hour.

5.—No person shall, without the written consent of the selectmen, play at any game in which a ball of any kind is used, or fly a kite, or throw or shoot stones, arrows, balls, snow balls, or other missiles, or discharge any gun, cannon, or firearm, or make any bonfire or other fires in any street or way where the public have a right to pass.

6.—No person shall propel, drive, wheel or draw any bicycle, tricycle, cart or vehicle of any kind whatsoever except a child's carriage drawn by hand, nor use roller skates upon or over any sidewalk in this town, nor permit nor suffer any horse, cattle, swine or sheep, belonging to him or under his care or keeping, to go upon or over the same, nor suffer any horse to remain hitched across, or upon, or otherwise obstruct or injure, any such sidewalk.

7.—No person shall hitch or fasten any horse to any ornamental tree standing or growing on or near any sidewalk, or to the boxing or guard about said tree, without the consent of the owner thereof.

8.—No person shall without a written license from the selectmen place or cause to be placed, or suffer to remain within the limits of a street or upon any sidewalk, so as in any manner to obstruct the travel thereon, any vehicle, wood, coal, manure, dirt, gravel, stones, building material, barrels, boxes, merchandise, or any rubbish or obstruction whatever.

9.—No person shall carry in a public street, house-offal, either animal or vegetable, or grease, or bones, or the contents of cesspools or vaults, unless he has been expressly licensed therefor by the Board of Health, upon such terms and conditions as said board may deem that the health and interests of the town require.

10.—Loud crying of wares or merchandise, or hallooing, hooting or making loud and unseemly noises on the public streets or squares of the town, to the annoyance of the citizens, is prohibited.

11.—No person shall behave in a rude, indecent or disorderly manner, or use profane, indecent, or insulting language, in any public place, or on any sidewalk or street in the town, to the annoyance or disturbance of any other person there being or passing in a peaceable manner, or be or remain upon any sidewalk, street, or crossing, or about doorways or places of business, to the annoyance or disturbance of any person.

12.—Three or more persons shall not continue to stand or remain in a group or near to each other, on any sidewalk or street or crossing, or in any public place, in such a manner as to obstruct a free passage for foot passengers, after having been requested by a constable or police officer to move on.

13.—No person shall be or remain in any doorway, or upon any stairs, doorstep, portico or other projection from any house or building, or upon any wall or fence on or near any street or public place, after having been requested by the owner or any occupant of the premises or by any constable or police officer to remove therefrom.

14.—No person shall make any indecent figures, or write, print, paint, or cut any obscene word or words upon, or deface, break or injure in any manner, any fence, post, sign, street lantern, building or structure; or commit a nuisance upon any sidewalk or other place resorted to by the public, or against any tree, building or structure adjoining a sidewalk.

15.—No person shall extinguish any street light, or extinguish or remove any light placed to denote an obstruction or a defect in any street or way, without proper authority.

16.—No person shall swim or bathe in any of the waters within the limits of this town, so as to be exposed in a nude state, to the view of any person passing or being upon any railroad or street or in any dwelling-house in this town.

17.—No person shall intermeddle with any hydrant, gate, gate-box or water pipe placed or located within the limits of any public way in this town, without permission from the selectmen or the Hyde Park Water Company.

PASTURING OF CATTLE OR OTHER ANIMALS ON STREETS OR WAYS.

No person shall pasture any cattle, goat or other animal upon any street or public way in said town, either with or without a keeper, except within the limits of such way adjoining his own premises, and field drivers are instructed to enforce this by-law.

TRUANTS.

1.—This town hereby avails itself of the several provisions of the statutes of this commonwealth, now in force, relating to habitual truants and absentees from school.

2.—All children convicted of habitual truancy hereunder, and children between the ages of seven and fifteen years, residing in said town, and who may be found wandering about the streets or public places of said town, having no lawful occupation or business, not attending school, and growing up in ignorance, may be committed to the Lawrence Industrial School, at Lawrence, Mass., or to any house of reformation which has been or may hereafter be established by the County Commissioners of the County of Norfolk, or to any place provided by this town within its limits, for confinement, instruction and discipline.

3.—Two or more truant officers shall be appointed annually, whose duty it shall be to inquire into all the violations of the truant laws, and of the law relating to compulsory education, and to do all the acts required of them by the laws of the Commonwealth.

4.—It shall be the duty of every truant officer, previous to making any complaint under these laws, to notify the truant, or absentee from school, also his parent or guardian, of the offence committed, and of the penalty therefor, and if the truant officer can obtain satis-

factory pledges for the restraint and reformation of the child, he may, at his discretion, forbear to prosecute so long as such pledges are faithfully kept.

5.—It shall be the duty of the School Committee, the teachers of the public schools, and the citizens generally, to aid the truant officers as far as possible in the discharge of their duties.

6.—It shall be the duty of the truant officers to keep a full record of all their official acts, and make an annual report thereof to the School Committee, who shall publish the same with their own report.

7.—Nothing in these by-laws shall be so construed as to alter or impair the obligation and duty of teachers to enforce punctuality and regularity of attendance, and to preserve good order and discipline.

LIST OF TAX-PAYERS.

The names of all persons paying a tax on real or personal property shall be published annually in the town reports, together with the amount of tax assessed upon each, and whether the same is paid or unpaid.

DUTIES OF TOWN CLERK.

The Town Clerk shall keep a file of all town reports, reports of all committees chosen by the town, and all original documents relating to the affairs of the town which may come into his possession; he shall, as soon as practicable after any election has been held by the town, in addition to the notices he is now directed to give to officers who are required to take an oath of office, also issue a written or printed notice to all persons who have been elected to any other office, or chosen to serve on any other committee, stating the office to which such person has been elected, or the duties which such committee was chosen to perform.

CONTRACTS MADE IN BEHALF OF THE TOWN.

Every contract exceeding one thousand dollars shall be accompanied by a suitable bond for the performance of the same, or by the deposit of money or security to the amount of such bond.

ACTIONS AT LAW.

The selectmen shall have full authority, as agents of the town, to employ counsel to institute and prosecute suits in the name of the town, and appear for and defend suits brought against it, unless otherwise specially ordered by a vote of the town.

CONVEYANCING.

Whenever it shall be necessary to execute any deed conveying land, or any other instrument required to carry into effect any vote of the town, the same shall be executed by the selectmen, or a majority of them, in behalf of the town, unless the town shall otherwise vote in any special case.

BY LAWS IN RELATION TO THE PREVENTION OF FIRES.

1. —It shall be the duty of every person who shall commence the erection of any building within the town of Hyde Park to notify the Board of Engineers thereof before he shall commence building the chimneys therein.

2. —All chimneys in wooden buildings shall be built of brick, stone, or other fire-proof non-conducting material. All brick flues shall be smoothly plastered *inside* with mortar from top to bottom or lined with earthen pipe, and shall be plastered *outside below the roofing*.

3. —In no case shall chimneys rest upon any flooring without a footing of masonry or iron supported by iron beams, having a secure bearing of masonry or iron at either end.

4. —All flues shall be topped out at least four feet above the roof of the building to which they belong. The brick topping out of chimneys shall not have more than two inches projection unless covered by a cap of metal or stone properly secured.

5. —Hearths of fireplaces or grates shall be laid upon brick or other trimmer arches, or upon bars of iron supporting a bed of brick-work.

6. —No wood-work of any kind shall be placed at a less distance than one inch from the outside brick work of any flue. In no case shall a nail be driven into the masonry of any flue.

7. —No wood-work shall be placed at a less distance than one inch from any tin or other metal flue or flues, pipe or pipes, used or intended to be used to convey heated air or steam in any building, unless such flues or pipes shall be cased with metal, leaving a free circulation of air all around the same.

8. —No smoke pipe in any such wooden or frame building shall hereafter enter any flue unless the said pipe shall be at least twelve inches from either the floors or ceiling; and in all cases where smoke pipes pass through stud or wooden partitions of any kind, whether the same be plastered or not, they shall be guarded by either a

double collar of metal, with at least four inches of air space and holes for ventilation or by a soap-stone ring, not less than three inches in thickness and extending through the partition.

9.—The Board of Engineers shall examine into all shops and other places where shavings or other combustible material may be deposited or collected, and at all times be vigilant in the removal of the same, whenever, in the opinion of a majority of them, the same may be dangerous to the security of the town from fires; and direct the owner, tenant, or occupant of said shops, or other places, to remove the same; and in case such owner, tenant or occupant, refuses or neglects so to do, shall cause the same to be removed at the expense of such owner, tenant or occupant.

10.—It shall also be the duty of said engineers to take cognizance of all buildings in the town in which any steam engine shall be used, and of all buildings in town in process of erection or alteration, and to make a record of such buildings as in their judgment may from any cause be dangerous, and report the same to the selectmen forthwith. And whenever in the opinion of the majority of the Board of Engineers, any chimney, hearth, oven, stove, stovepipe, fire frame or other fixtures, or any camphene or other explosive or inflammable fluid or material, or whatever else may give just cause for alarm, should be altered, repaired or removed, they, the said engineers, shall forthwith notify and direct the owner, tenant, or occupant of the premises upon which the same are situated, to alter, repair or remove the same, as the said engineers shall direct. And in case such tenant, owner or occupant shall refuse or neglect so to do, the said engineers shall cause the same to be removed, altered or repaired at the expense of such owner, tenant or occupant. And any person who shall obstruct the engineers, or any of them, in carrying out the provisions of this section, shall be liable to the penalty hereinafter stated.

11.—The removal, extension or essential alteration of any building; also the rebuilding or repairing of any building which has been partially destroyed by fire, shall be subject to the same restrictions as are imposed by the foregoing By-laws on the erection of buildings.

PUBLICATION OF BY-LAWS.

The Selectmen shall publish these By-laws annually in connection with the town report.

PENALTIES UNDER THE BY-LAWS.

Every violation of any of the foregoing By-laws shall be punished by a fine of not less than one dollar nor more than twenty dollars, to be recovered by complaint before any trial justice in the County of Norfolk, or any other court having jurisdiction.

PROSECUTION UNDER THE BY-LAWS.

Any citizen may, and the selectmen, constables, and police officers shall, prosecute every violation of the foregoing By-laws, by complaint before any trial justice in the County of Norfolk, or any other court having jurisdiction.

LIMITATION OF ACTIONS.

No person shall be prosecuted or tried for any breach of the provisions of any By-laws of this town, unless the complaint for the same shall be instituted and commenced within six months from the time of committing such breach.

All By-laws or parts of By-laws of this town heretofore existing are hereby repealed, and these By-laws of the town of Hyde Park shall go into effect from and after their adoption by the town and their approval by the Superior Court or any Justice thereof.

Commonwealth of Massachusetts. Norfolk, SS.

HYDE PARK, November 17, 1886.

At a meeting of the legal voters of said town of Hyde Park, held in Everett Hall, on Wednesday, the seventeenth day of November, in the year of our Lord eighteen hundred and eighty-six, the foregoing By-laws were adopted by said town.

Attest:

HENRY B. TERRY, *Town Clerk.*

Commonwealth of Massachusetts. Norfolk, SS.

SUPERIOR COURT, December Sitting, 1886, to wit: January 26, 1887.

The foregoing By-laws are hereby approved.

By the Court.

ERASTUS WORTHINGTON, *Clerk.*

True copies. Attest:

ERASTUS WORTHINGTON, *Clerk*

REPORT OF THE SCHOOL COMMITTEE.

TO THE CITIZENS OF HYDE PARK :

The public schools of your town have completed another year of their history since our last report. We believe that it has been a year of steady and systematic work and therefore of much value to the children in attendance.

No radical changes have been made in methods and very few changes in the corps of teachers have occurred, so that the work of the year has been carried forward smoothly and without friction, conditions always to be desired in school work.

ORGANIZATION AND STATISTICS.

HIGH SCHOOL

Mr. Jere M. Hill, master; Mr. Emerson Rice, Mr. George F. Freeman, sub masters; Miss Sarah L. Miner, Miss Anna W. Edwards, assistants.

Graduates (four years' course).—Mabel E. Besse, Ruby P. Bridgman, William P. Brown, Martha A. Cable, Florence W. Davis, Edith M. Farnsworth, George F. Fiske, Albert N. Habberley, Lillian M. Harlow, Lilla M. Hilton, Florence G. Hoogs, Lucy W. Howard, Winifred Kendall, Walter E. Piper, Emma L. Samuels, Mary B. Thompson, William M. Trotter, Roxana H. Vivian, Amy E. Whittemore, Alice L. Williams.

(Two years' course)—Joseph C. Andrews, Louise J. Loftus, Ellen M. Mortimer, George T. Williams.

“ expended for incidentals,	544 01

In addition to the amount above expended for incidentals the sum of \$589.05 has been used for purposes of benefits to all schools and in such a manner that it cannot be exactly apportioned.

APPROPRIATIONS AND EXPENDITURES.

At the annual meeting the town gave us for school purposes :

Salaries, janitors and fuel,	\$28,000 00
Text books and supplies,	1,500 00
Incidentals,	3,150 00
Evening schools,	700 00
Industrial schools,	150 00
Laboratory for High School,	500 00
	<hr/> \$34,000 00

Unexpended balance from last year—

Salaries, janitors and fuel,	\$143 84
Text books and supplies,	103 79
Incidentals,	4 71
Evening schools,	82 49
Industrial schools,	20 11
	<hr/> \$354 94

It is thus seen that we have had the sum of \$34,354.94 to use for the benefit of the public schools.

The expenditures have been :

Teachers' salaries, janitors and fuel,	\$28,353 97
Evening schools,	601 15
Text books and supplies,	1,424 69
Incidentals,	3,118 84
Industrial schools,	112 85
Laboratory,	103 26
	—————\$33,714 76

TEACHERS.

The schools during the past year have had the benefit of experienced teachers, many of whom have been in the service of the town for several years. These teachers fully understand our school system and the character of the work desired. They have a good knowledge of the pupils themselves; from associations with parents and a general knowledge of their home training. These are advantages which enable them to carry on their work with greater ease to themselves and with better results to the children. A new teacher has much to learn in these directions, be he ever so capable, before the best results can be expected. The town during the past year has been very fortunate in retaining its teachers, and when a few more years shall have elapsed and the annual interest account of the town shall have been substantially reduced, a comparatively small amount can then be added to our salary appropriations and Hyde Park will be placed in a position where it will not be the constant stamping-ground of school officers from neighboring cities and towns in search of good teachers. This often works serious injury to our schools, as, without regard to the fact that teachers have been employed for a year, and the best interest of our schools demand that they remain, school officers from cities or towns that can pay an increased salary unhesitatingly negotiate with these teachers and in-

duce them to enter their employ without regard for the rights and interests of our schools. We shall be glad when the town can afford to put an end to this practice.

COURSE OF STUDY.

Some eight or ten years ago the course of study was carefully revised, and with slight modifications in a few particulars this course has remained unchanged. Practically, however, the work of the schools is not in conformity with the printed course in many and important matters. In order that our printed course might be a guide for the teachers, especially such as should be just entering our employment, it was deemed wise to revise the whole course, and a sub-committee now has the work in charge and is making a thorough investigation into the whole matter. Conferences have been had with the teachers of the various grades and the work and needs of each department carefully examined. When the sub-committee reports it is probable that a revised course will be adopted which may modify the present work in some particulars, and be ready for the schools at the beginning of the school year in September.

TEXT BOOKS.

In connection with the revision of the course of study often comes the matter of changes in text books. Many of our text books were adopted at the time of the general revision of the course above mentioned. It may be found desirable to change some of these should the present course be materially modified. This matter has been referred to the committee at work upon the course of study for examination and recommendations.

MUSIC.

The results in music have not been as satisfactory as we hoped at the time of our last report. A sub-committee has

been especially charged with the careful investigation of the whole matter, that we may determine whether the trouble is due to the system or a lack of support of the music teacher by those charged with the execution of the work as assigned by him. A strong feeling prevails that there should be more interest and better results, and when it becomes apparent from the report of the sub-committee what remedy will correct the fault, it will be promptly applied.

SEWING.

This branch of industrial work has been continued in the same grades as last year with satisfactory results.. The only drawback seems to be in finding proper and interesting work for the lads of these grades during the hour each week devoted to these lessons.

ATTENDANCE.

The town is to be congratulated upon the freedom of the schools from contagious diseases during the year, and in fact it has been a number of years since we have had any trouble from this source. It has been our care to guard the health of the children in every way possible. The rooms and buildings are watched with care and nothing of an unhealthy character is allowed to remain, and disinfectants are freely used both in the rooms and out buildings. Text books are carefully watched and often treated with the disinfectant. Every effort is made by the committee, teachers and janitors to have the surroundings of the children as healthful as possible. When the health of the children is well guarded the attendance will be well sustained.

This has been the case during the past year. Another thing that helps to keep up the attendance is the careful interest of parents to see that the children are regularly sent to school. A laxness here sometimes works great injury

not only to the pupil himself but to the whole school. We have, however, little cause to complain of this in Hyde Park.

STANDARD OF SCHOLARSHIP.

In the interest of better preparation for the High School as well as of better work in the last years of the Grammar School Course, it was resolved by the Committee quite early in the year to require an average mark of 75 per cent. from the Grammar graduates to entitle them to diplomas and to admission to the High School. This course seems necessary, as it had been the practice for a number of years to refer candidates for Grammar School diplomas who had failed of the required per cent. to their respective local committees, with power to grant a diploma if upon investigation any special cause appeared which would entitle them to the certificates. When this was done some pupil would succeed in making a case which would seem to entitle him to a diploma, and then as it is hard to draw nice distinctions in these cases, the result would usually be that all would take the diploma and enter the High School.

The evil effects of this were twofold at least. It tended to careless work in the Grammar Schools and lowered the standard of the High School. Upon examination last summer out of a class of ninety-seven, twenty-three were found to be below the required 75 per cent.; of these twenty-three, seven were below 70 per cent., and but two below 65 per cent., and none below 64 per cent. As many towns require but 65 per cent. for admission to High Schools, and some even require as low as 60 per cent., it will be seen that the average of the Grammar classes was very creditable, when tried by the standard of other towns. The rule was adhered to in all cases. A supplementary examination was given in August to such scholars as desired to work through vacation and try to obtain the required per

cent. About fourteen applied, but only two were successful in passing this examination to the satisfaction of the committee.

Many of those who failed are taking another year in the master's classes of the Grammar schools, and from our past experience it is confidently expected they will be well equipped for graduation and an entry into the High School the coming year. We believe the effect of this rule is good and will result in better and closer work through the whole Grammar course. It certainly holds the standard of the High School upon a very much higher plane than heretofore. It is not improbable that the same rule will be strictly adhered to the coming year, and that all scholars of our town who enter our High School will be required to either obtain a Grammar School diploma based upon an average of 75 per cent. or to obtain the same average upon an examination to be held in August.

MILITARY DRILL.

During the year it was voted to grant the petition of the boys of the High School asking for a military drill. The committee are heartily in accord with this movement of the lads of the school. In September, Mr. Freeman took the matter of the organization and drill in charge. Since then the exercise has been constant and well sustained by the pupils—in fact it is now substantially a part of the course in the High School. Many of the cities and larger towns make this a feature of their course, and the enthusiasm with which our school has taken hold of this matter shows that the boys of Hyde Park are not to be outdone in a matter of this kind. Two companies of about thirty-five each are organized and are now ready for arms. The expense of properly arming and equipping the lads has been quite an obstacle for the committee to overcome. We have, however, procured equipments for one company by appropriating

about \$150 of the Mass. school fund to that purpose, and shall ask our citizens at the appropriation meeting in March for the funds to equip the other company. We believe that our citizens will cheerfully give these lads this money to enable them to perfect themselves in this drill and to some extent acquaint them with a science which in a free country like ours may be useful in defence of their liberties and their homes. Aside from these considerations we consider the drill of great benefit merely in the direction of physical culture and development.

PHYSICAL CULTURE.

A sub-committee has been appointed to have the subject of the Ling System of light gymnastics properly brought to the attention of our teachers and citizens, with a view to making it a part of the work of our school course. A lecture upon this, with illustrations of the movements, has been given, which the public largely attended. The teachers of some of our schools are preparing themselves to instruct this system and to a limited extent it is being used experimentally in the schools. The subject is of much importance, and is now under wide discussion among educators.

ACCOMMODATION.

The Greenwood building is now overcrowded, and some step for its relief will soon become imperative. Increased accommodations may be necessary, or it may be possible by a change of district lines to send a portion of the scholars now in the Greenwood district to the Grew School and a portion of the Grew scholars to the Damon School, where we now have several vacant rooms. Should this be done we should recommend some action by the town to render the approach to the Damon School across Mother Brook safe for the use of the children. Unless some such

action was taken, the Board would hesitate about making the change of district line suggested. A conference with the Selectmen may enable us to come before the citizens in March with some recommendation upon this matter.

The High School building, although but recently enlarged, is now fully occupied. We have the largest High School in this county, and if it continues to prosper it will be but a year or two before the demand for a new and larger building must be met.

It may not be out of place here to refer to the matter of the purchase of the land just in the rear of the present High School building, owned by Mr. David Perkins, which the School Committee was authorized by vote of the town to purchase at a price not to exceed 12 1-2 cents per foot. A sub-committee was appointed to negotiate with the owner for this land; that committee waited upon Mr. Perkins, who then absolutely refused to fix any price for the land or to sell it upon any terms; he did not consider the price inadequate but simply declined to sell it. All that now remains is for the town to proceed under the Statutes and take the land for the use of schools when it shall be thought desirable to secure it.

CONCLUSION.

We at times hear criticisms that our schools cost too much; that they might be carried on for less money, and at times statements appear claiming to show extravagance in school management, but we believe many of these are founded upon insufficient or inaccurate information, or a failure to understand what the citizens of the town require for their children in the public schools. If we understand the temper of the people of Hyde Park, they will not be content with over-crowded rooms or cheap, poorly paid instructors, nor will they submit to cold and poorly cared for school-rooms. When it is said our schools can be carried on for

much less money, we can admit that they could, but when it is said that our schools can be carried on and kept to the required standard in all particulars for much less money the statement is not justified. The children are placed in a measure under our care for a number of years, and not only is their mental training to be cared for, but they are to be physically protected, that when their term in the public school is ended they may come out not broken in health but vigorous, well-developed boys and girls, free from the effects of over-crowded and filthy rooms, or the dangers consequent upon the use of filthy books. Everything about the rooms and building must be clean; the buildings must be warm and well lighted; the text books must not be used when they appear in an unhealthy condition. All of these matters are jealously watched by careful and anxious parents, and are always a source of care for the committee and of expense to the town. As a general proposition, we believe no money paid by the taxpayers is applied to better purpose than that which they vote for the education of their children.

Hyde Park, with all of its improvements in other departments, has always stood loyally by its public schools and has cheerfully voted whatever sums have seemed necessary to provide its children with comfortable school rooms, good instructors, and whatever else seems necessary for a good school system.

It has been the work of the committee to carefully expend this money and to see that the wishes of the town in these matters were met as far as possible. There has been no dissensions in the committee in the work, and the teachers have faithfully tried to second all of our efforts to give to the children of the town all the advantages and benefits possible from the use of the funds placed at our disposal.

We have tried to have the work as thorough as possible in all particulars, but it must ever be borne in mind that the

requirements of the Statutes are many, the children young and the school course short. It is possible that it is too much to expect of a child of thirteen years, the supposed age of the Grammar graduate, that he should be fully fitted for the counting room, or in fact any general business, without further training.

The High School is supposed to graduate scholars at the age of seventeen years, and gives better but not complete business training. The most that the schools claim to do is to give the children sufficient character, habits of study and mental strength upon and with which they may build as their future life work may require. They cannot do more and should not do less.

In closing we cheerfully acknowledge our obligations to citizens and teachers for their support and co-operation during the year, and we hope that the future of the children may be such that the work shall bear good fruit.

CHARLES G. CHICK, Chairman.

HYDE PARK, Feb. 3, 1891.

At a meeting of the Hyde Park School Board the foregoing report of the Chairman was read and adopted as the annual report of the full Board.

R. M. JOHNSON, Secretary.

SUB-COMMITTEE REPORTS.

HIGH SCHOOL.

The High School continued until the close of last year, in June, under the same teachers as reported last year; but owing to the resignations of Miss Morse and Mr. Eldridge during the summer vacation, vacancies were created which the Committee filled by the appointment of Miss Anna W. Edwards and Mr. Geo. F. Freeman in season for the beginning of the year in September. Both of these teachers are college graduates with ample acquirements. There is increased interest under their instruction, and the committee look for the most gratifying results in their departments. The school generally, under Mr. Hill's management, has maintained its reputation for scholarship, and the different departments have been characterized by progress and efficiency not exceeded probably in any period of its history.

The whole number of scholars at present in the school is 161, and they are classed as follows:

First class,		17
Second class,		24
Third class,	4 years, 40 2 " 11	51
Fourth class,	4 years, 43 2 " 13	53
Special courses,		13—161

The entering class at the beginning of the year in September numbered seventy. The growth of the school is gradual but steady, and will no doubt continue so.

It is the effort of the Committee to lengthen and perfect the scientific branch of the curriculum in order to afford a higher education in this direction to all who enter its classes.

During the past year the Committee have used such portions of the appropriation for a laboratory as have been needed. Such apparatus as we have has been well selected, and we expect during the coming year to put before the pupils ample facilities for the prosecution of study in each of the sciences. The town has much reason to be proud of the classical instruction given in this school. There is no reason why its scientific results should not be made equally creditable.

Physical training has been given special attention this year, and both girls and boys take hold of it with interest. The lack of sufficient room in the building will prevent the carrying out of the girls' exercises beyond a more or less light form of calisthenics. Any freedom of movement is out of the question for lack of a suitable hall. The military drill for the boys is not merely a drill or show, but aims at a better physical development and muscular action. It is deservedly popular with them, and the corps has attained a good degree of efficiency under the instruction of Mr. Freeman.

We cordially invite parents and citizens to visit the school and inspect its work and aims. We hope to so equip the pupils that when they have completed their studies they may enter upon higher courses, or business, as their maturer judgment may dictate, with full assurance that their time has been profitably employed, whichever course they may have taken.

RICHARD M. JOHNSON,
CHARLES G. CHICK,
EDMUND DAVIS,

High School Committee.

GREW SCHOOL.

The following changes in instructors have taken place in this school during the year. Miss Isabella P. Noble, who had been serving very acceptably as Master's assistant, was obliged to sever her connection with the school and return to her home in Michigan. It was considered expedient to fill the vacancy thus made by promoting Miss Mary A. Winslow from the sixth class, where she had long done most efficient service. Miss Margaret A. Hanlon, a very strong and reliable teacher, was placed in charge of the entire sixth class. Miss Margaret E. Bertram, another of our most capable teachers, in charge of the seventh, and Miss Mary D. Pollard, who had made a successful year in the Damon School, was placed over one division of the eighth class. All these changes took place at the beginning of the Fall term, and have resulted very satisfactorily. These classes, as well as the others in the building, are in good condition as respects proficiency and deportment. The number of scholars attending this school is steadily increasing, but the grading and arrangement of classes are the best for many years.

During the year a tower enclosing stairs, providing a means of descent from each story to the ground, was erected upon the westerly side of the building, in compliance with the demands of the State Inspector. This was done by a committee appointed by the town for that purpose. This work has caused changes in other parts of the building and grounds which will call for remedying, at some cost, in the future. Considerable water backs up from the gutters and flows into the house, and new concreting in the yard near the tower will be needed. New chairs and desks were finished in one class room during the summer vacation, some painting and repairs done in the interior of the building and about the out-houses, and an unused room near the hall fitted up to serve as a place where the teachers can meet for purposes connected with their duties, a thing which we understand

that they decidedly appreciate and which we would recommend for the other buildings. It is the intention of the committee to substitute electric gongs and bells in place of the much-worn and nearly useless apparatus now used for directing the movements of the school. We call attention to some matters that should be considered when making up estimates for the next school appropriation. The walls of the rooms should be cleaned and tinted, not only for the sake of appearance but of cleanliness. Reference books, such as encyclopædias, histories, etc., are needed, that the children may learn how to properly use such books to gather information and to supplement the matter in their text-books. The school building would be benefited and improved by painting on the outside. The question of heating has reached the point where it must be intelligently treated. Three of the furnaces are now so badly used up as to be unfit to repair. The others are more or less defective. Shall new ones be substituted to partially warm the building and continue the dust and gas which frequently invade the class room, or shall a comprehensive plan of heating by better methods, such as steam, or hot water, be adopted? Our recommendation is unqualifiedly in favor of the latter alternative. If this is done we further recommend that the basement be fitted up for use as a play room in wet and cold weather. The Grew school yard is a very bleak place in winter, and children wisely shrink from using it at recess time and between sessions. The ceiling of the basement should also be rough plastered to prevent dust and odors from arising into the class-rooms and corridors.

EDMUND DAVIS,
LOUISE M. WOOD.

Sub-Committee,

GREENWOOD SCHOOL.

The year has been one of steady growth, unmarked by any special features calling for extended notice in this report.

The school has suffered somewhat from changes which have occurred in its corps of teachers during the past year. Miss Adelaide L. Dodge resigned her position as teacher of the seventh class at the close of the school year in June after six years of faithful service. Promotions and changes were made among the remaining teachers in such a way as to leave a vacancy in the eleventh class. Miss Mary D. Pollard was transferred from the twelfth class in the Damon School to fill this vacancy, but early in the fall term was again promoted, and transferred to the Grew School. Miss Rose M. Tarbox, formerly of Farmington, Maine, assumed the position for the balance of the fall term, remaining in charge of this class until the Christmas vacation, when she resigned. Since that time the class has been in charge of Miss Elizabeth B. Freeman, who is doing good work and possesses the qualities necessary to make a successful teacher.

Early in November Mrs. Josie T. Reid, who has filled the position of Master's assistant to the satisfaction of the Master and Committee, received a better offer from Yonkers, N. Y., and resigned her position here to accept the same. Up to this time no one has been appointed to the position. Mr. Thompson has been assisted by Miss Mary L. Peirce, who is acting as a substitute.

The Committee have found it hard to find such a teacher as we think the place demands, for the price we pay. We expect, however, that the place will soon be permanently filled.

We believe that the appointment of Master's assistant was a wise move, and is already bearing fruit in better organization and higher standard of scholarship.

Through the generosity of a number of public spirited citizens of the district, the school was presented with a hand-

some flag, which was thrown to the breeze on the 21st day of February, with exercises appropriate to the day and the occasion.

In the line of improvements about the grounds and building concrete walks and a forming platform have been laid in the yard, and the steam heating system has been extended into the main hall, which has heretofore been useless except during the summer months. The expense of these improvements was about \$325.

In the report of last year your Committee called attention to the rapid growth of this section of the town, and gave expression to the thought that additional school accommodations would be required at no distant day. The need in this direction is more apparent to-day than it was then. A year ago the membership was reported as 344. The average membership for the last term has been 384, an increase of 40. Some of the rooms are crowded, particularly the ninth grade under the care of Miss Woods, which has 58 scholars. A glance at the statistics of the school as presented elsewhere in this report, will show the condition of the various rooms. The percentage of attendance is worthy of note, being 93 per cent. of the average membership. If the usual increase attendant upon the spring and summer terms is maintained, it is probable that the question will demand a settlement with the beginning of another school year in September. The small hall which is unoccupied can be converted into a class room at the mere outlay incident upon furnishing; and by putting in a partition, it can be made into two class rooms. This will be necessary in the near future. A second plan would be to change the district lines, throwing a part of the territory now embraced in the Greenwood district into the Grew. But, in the opinion of your Committee either plan will afford only a temporary relief. The growth of the town will sooner or later necessitate the erection of a Grammar School building somewhere in the vicinity

of the present High School building, as set forth in the plan proposed by the School Committee two years ago. The town endorsed that plan, and voted to purchase the land adjacent to the High School grounds, for that purpose, but the Committee have been unable to effect the purchase. Along this line, in the opinion of your Committee, the satisfactory solution of the question lies : any of the other plans proposed will, in our opinion, afford only temporary relief, as, if the town continues to grow in its outskirts as it has the past two years, the erection of another school building somewhere near the centre will be a necessity, and is only a question of time, and that time not far distant.

EDWARD S. HATHAWAY,
LOUISE M. WOOD,

Sub-Com. on Greenwood School.

BUTLER SCHOOL.

The two primary classes of the Butler school have remained under the care of the same teacher as last year, Miss Grace B. Gidney. She has done faithful work, and her pupils have made commendable progress.

Few repairs have been necessary during the year. A soapstone sink, a much needed convenience, was placed in the building in the summer, also window boards on several of the windows for better ventilation. The Committee would recommend the painting of the building both outside and inside during the coming summer.

LOUISE M. WOOD,

Local Committee.

FAIRMOUNT SCHOOL.

After careful inquiry in regard to the health of Mr. Howard, the Committee unanimously decided that the best interests of the school demanded the election of Mr. E. W. Cross to the position of principal.

From various causes several changes have been made in the teaching force. Miss H. N. Sands held the position of Master's assistant until the Summer vacation. Mrs. Mary C. Howard was then transferred from the sixth class to the fifth, and has since occupied this position to the general satisfaction of all concerned. Transfers of teachers were made from the seventh to the sixth class, from the eighth to the seventh, and from the ninth to the eighth class, leaving a vacancy to be filled in the ninth grade. Mrs. Josephine P. Poole, a lady who had passed a good examination, and presented excellent testimonials of fitness and experience, was chosen to this place, and has well sustained her previous good reputation. From the twelfth class Miss Abbie M. Hood was induced to go to a school in Waltham by an offer of larger pay than our appropriation would allow, and the

place has been filled very satisfactorily by the election of Mrs. Helen O. Thompson, formerly a much prized teacher in the school, known then as Miss Oliver.

In all the grades, from principal downward, the teachers are now working heartily, pleasantly and successfully, and we anticipate few, if any, changes in the near future.

Mr. Cross deserves special commendation for his care of the building, and all its fixtures and appurtenances, and for his persistent effort to secure gentlemanly bearing and conduct of pupils *in the streets and school yard* as well as in the school rooms; while at the same time his literary duties have been conscientiously and carefully performed.

Mrs. D. A. Preston has given lessons in sewing weekly, in the eighth and ninth classes, and accomplished all possible in the time allowed.

ANDREW WASHBURN,
RICHARD M. JOHNSON,
Committee.

DAMON SCHOOL.

The school has continued under the charge of Mr. Manter, whose services have been entirely satisfactory to the Committee. In September Miss Pollard was transferred by vote of the committee to the Greenwood School, and Miss Dora F. Hastings was employed to fill the vacancy.

Miss Hastings is a graduate of our own High School and has had several years of experience elsewhere as a teacher. She is giving good satisfaction.

No other change of teachers has occurred. No scholars took the diploma from this school last year for the reason that during the spring term the graduating class had but one pupil, Master George Lynch, who, at his own request, was transferred to the Fairmount School, where he graduated with a rank very complimentary to this school. The trans-

fer of Master Lynch enabled the Master to give his whole time to the sixth and seventh grades. The present year we hope will find us with a good class for graduation.

The average attendance is about as last year (110) but it seems impossible, if any regard is had to grades or the welfare of the scholars, to further reduce the corps of teachers. During the summer vacation the town water was introduced into the building and the wisdom of the action is apparent. The building is now supplied with hose attachments upon two floors, sufficient for use in case of fire. As four rooms of the building are unused by the school, some evil disposed persons took delight in breaking the windows. In view of this the committee provided shutters for the windows of these rooms, some of which are already in position and the remainder will be put in use during the long vacation.

The work of the school has progressed very smoothly and we have every reason to believe with great profit to the children of the school.

CHARLES G. CHICK,
A. WASHBURN,

Local Committee.

EVENING SCHOOLS.

These schools were continued from the date of last year's report to March 18th, the Centre school under Mr. Emerson Rice as principal, with Miss M. E. Bertram as assistant, and the Readville school under Mr. G. F. Eldridge as principal, with Mrs. A. M. Merrill as assistant. They were reopened December 1st, the Centre school with Mr. Rice as principal, and Miss Cherrington as assistant; and the Readville school with Mr. G. F. Freeman as principal, and Mr. E. St. C. Fellows as assistant.

In these schools respectively the whole number of scholars has been 60 and 57, and the average attendance has been

18 and 21. These numbers are small as compared with previous years, and it is to be regretted that more of our younger people do not avail themselves of the opportunity generously given by the town to remedy the defects in their education. Still the figures above given represent those who really mean business in attending these schools, that element which has gone for a few nights only for the fun of it having been less troublesome than formerly. It has been practically impossible to grade the schools on account of the necessarily irregular attendance, and the work is chiefly individual and in simple branches. The results on the whole, considering the time and circumstances, have been all that could fairly be expected.

EDMUND DAVIS,

E. S. HATHAWAY,

Committee on Evening Schools.

EVENING DRAWING SCHOOL.

This school which had heretofore for some years been under the able and satisfactory direction of Mr. H. W. Killam, was obliged to dispense with his valuable services at the opening of the winter term on account of his removal from town. Mr. Frank W. Howard was selected as instructor, and the school has been very ably managed by him. His report is herewith submitted.

EDMUND DAVIS,

E. S. HATHAWAY,

Committee on Evening Drawing School.

EDMUND DAVIS, Esq., Chairman Committee,

Dear Sir :

I submit the following report of the work of the evening drawing school up to Feb. 1st, 1891.

The school opened December 1st with forty-one students,

most of whom are employed in the machine shops or by the builders in the town. The school is divided into three classes: an elementary class, which meets at 7.30 P.M. on Wednesday, a class in machine and another in architectural drawing. The last two classes meet on Mondays and Fridays at the same hour.

The elementary class comprises twenty-nine of the students, those who have had little experience in mechanical drawing. The work of this class includes geometrical constructions, practice in inking, orthographic projections and development of surfaces. The work of the class in machine drawing comprises the study of cams, screws and general details of machine construction. The architectural class are studying isometric perspective, details of construction such as the bonding of brickwork and details of window frames. It is now making a complete set of plans for a building.

In all the work of the school the most practical methods have been adopted. The aim has been to make the school as much as possible like a practical draughting room. Particular attention is paid to the reading of drawings.

The school has been well attended and the interest and diligence shown by the students is very gratifying.

The average attendance is fifteen. A careful inspection of the work by those interested is invited.

FRANK W. HOWARD,

Instructor.

Jan. 31, 1891.

INDUSTRIAL SCHOOL.

The introduction of lessons in sewing as a part of the regular school work, and the complete occupancy of every available moment during term time by the present requirements, decided your Committee to confine the operation of

the Industrial school instruction to the long summer vacation. Mrs. W. A. Boardman was re-engaged to take charge of the sewing school, and Mr. J. E. Webb, of the school of carpentry. Both schools were well conducted and attended by a fair number of pupils, who made good progress in the branches taught.

We ask again to call attention to the fact that towns and cities occupying the front rank in educational matters, and to which Hyde Park may safely look for example and leadership, are giving large and increasing attention to industrial training.

ANDREW WASHBURN.
LOUISE M. WOOD.
